QUALITY, TRUST, COMMITMENT, INNOVATION

MISSION

Our company has been providing innovative facade solutions in West Africa since 2013. Utilizing our in-house engineering expertise, we are able to create value for our customers and provide services throughout the project lifecycle from the development of concepts to manufacturing and installation. Our global engineering expertise coupled with our internal collaboration model, enables us to deliver complex solutions efficiently and effectively.

COMPANY PROFILE

Alubond Global Architectural Façades is one of the 17 group companies of Mulk Holdings International, a Multinational conglomerate with business interests in various fields like manufacturing of building materials and Energy saving products, Solar Technology, Health Care and Real Estate with a global network of more than eighty countries, The company is based in Sharjah Hamriyah Freezone and Ajman Freezone with a branch in Al Jurf Ajman.

Eurocon Building Industries produces Alubond U.S.A which is the world's largest brand of Aluminum Composite Panels with a capacity of over 7 million m² in U.A.E. The company is ISO certified and also winner of the prestigious MRM Business Excellence Award, Dubai for the Best Foreign Factory in 2008. The company was also awarded Ajman's 2009 Best Exporter of the Year and Sharjah Economic Excellence Award for the large manufacturing sector in 2010.

Alubond U.S.A. is a global leader in a variety of cladding applications Exteriors, Interiors and Corporate Identity applications, Cladding substructure solutions and Solar power systems; with products like Alubond U.S.A. Fire Rated, Alubond U.S.A. Green, Alubond U.S.A. Nano Premium, Alubond U.S.A. Stainless Steel, Alubond U.S.A. Titanium, Alubond U.S.A. Lite, Alubond U.S.A. Interior Mirrors, ABTI Open Groove and Mechanical Systems, Alubond U.S.A. Parabolic Troughs and Photovoltaic System Boosters. The strong R&D efforts have resulted in the development of new patented technologies for innovative applications in Acoustics, Solar and BIPV Market Segments.

Alubond U.S.A.® has, over the years, emerged as the world's largest metal composite brand with additional production bases in Europe, Middle East, and India. The new production bases in Sri Lanka and Saudi Arabia increased the installed capacity of metal composite panels to over 20,000,000 square meters and coil coating capacity to over 20,000 tonnes per annum.

Alubond Global Architectural Façades Offers a Total Solution Concept which is designed to offer a complete Turnkey package of supply and installation of Aluminium composite panels using an open joint silicon free ventilated substructure system with a full system warranty of 10 years.

Technology, Quality & Service

These are the words that mostly summarize AluK value around the world. AluK Group, having its headquarter in Italy - Verona, in more than 40 years of activity gained expertise and experience which allowed AluK to expand beyond national boundaries.

Thanks to its constant commitment in searching innovative and high performing solutions, in suggesting projects aimed to customers requests carefully following their development and realization, AluK brand became a stand for high quality and reliability for realization of systems for aluminium windows/doors and curtain walls at international level.

Through the merge with the French group Valfidus in 2011, AluK reinforced its presence worldwide, gaining strength and competitiveness to meet present and future challenges of the market.

USA
www.guardianinglass.com

Guardian InGlass interior glass solutions offer performance-driven, high-quality glass products for interior architects and designers. It's interior glass that is redefining performance and accessibility, brought to market by one of the world's largest manufacturers of float and fabricated glass for the commercial, residential and automotive markets—Guardian Industries Corp.

A privately-held company headquartered in Auburn Hills, Michigan, Guardian also has a significant market position in the manufacture of fiberglass insulation, distribution of building materials, and production of injected-molded plastics for automotive and other applications. Guardian has more than 18,000 employees located in 25 countries on 5 continents.
